

# **DYNATRAC** **HD BallJoint™**

Dynatrac Heavy-Duty BallJoints™ are the strongest, most durable and highest quality available anywhere, featuring heat-treated high-strength billet bodies with chromoly stems. The heat-treated, precision-ground stainless steel ball meets military specifications. Unique seals prevent contamination, and the ball joints have greasable fittings and Teflon-coated wear points to provide a long, durable life. Dynatrac BallJoints are rebuildable – they can be rebuilt on the vehicle with common hand tools.

#### Features:

- Superior in strength and durability
- Rebuildable: the last set of balljoints you'll ever need to purchase
- Heat-treated high-strength billet bodies
- Chromoly stems
- Heat-treated, precision-ground stainless steel ball
- Grease fittings for serviceability

#### Available for:

- 2007-2016 Jeep Wrangler JK
- 1999-2004 Jeep Grand Cherokee
- 2003-2012 Dodge Ram 2500/3500 4x4
- Most Dana 60 axles
